BUILT RUGGED. BUILT READY.

YOUR TOP CHOICE PARTNER IN INDUSTRIAL COMPUTING FROM THE EDGE TO THE CLOUD

Premio is a global solutions provider specializing in computing technology from the edge to the cloud. We design and manufacture highly reliable, world-class computing solutions for enterprises with complex, highly specialized requirements for over 35+ years. Our engineering specialty and agile manufacturing pushes the technical boundaries in Embedded IoT Computers, Rugged Edge Computers, HMI Displays, Panel PCs, and SuperCAP UPS Systems.

At Premio, we go to extraordinary lengths to solve the most formidable challenges faced by our customers. We do so by becoming more than their partner: we become their 'Inside Outsource' - an extension of their businesses, work cultures, manufacturing processes and operations, modulating our solutions to answer their special needs with speed, agility and precision.

Headquartered in Los Angeles, California, with a state-of-the-art manufacturing facility certified to ISO 9001, ISO 14001, and ISO 13485, Premio Inc. operates through strategic global locations—including a Taiwan facility certified to ISO 9001, ISO 14001, and IEC 62443-4-1.

With deep expertise in rugged product engineering, flexible speed-to-market, and end-to-end manufacturing transparency, Premio is committed to delivering next-generation industrial PC and edge AI solutions that meet the highest international standards and certifications—empowering customers across mission-critical industries.

- Industrial Automation
- Railway and Transportation
- Food & Beverage
- Military
- Kiosk & Retail
- Security & Surveillance
- Intelligent Healthcare
- Machine Vision & Robotics

OUR MISSION

Premio dedicates its engineering resources and manufacturing services to meet the incredible demands of computing across industrial and enterprise deployments. Our global teams strive for the highest standards in innovation and technology that translates into the design and mass production of our purpose-built computing solutions.

OUR VISION

“Your Success, Our Commitment.” With this simple vision, Premio aims to address computing challenges with purpose-built products. Premio solves challenges for our customers by delivering solutions around the design, integration, validation, and deployment of our computing products in IoT and edge markets. Our 35+ years of industry-knowledge enable our customers to leverage high quality products and application-ready hardware for a faster time to market.

OUR CORE VALUES

We deliver our core brand values through the way we conduct business. Premio's core values of Innovation, Commitment, Collaboration, Agility, and Accountability guide our decisions to exceed expectations.

AGILITY

We are flexible, adaptable, and responsive to the change in demands of our customers, the market, and our environment. We are willing to learn and create new ideas to drive and embrace changes actively.

INNOVATION

We constantly strive to drive innovation into all aspects of our business to provide products that deliver reliability, quality, performance, and value creation.

COLLABORATION

We work together to contribute to the development of new products and services that will ensure the success of our customers.

ACCOUNTABILITY

We always hold ourselves accountable for our products, services, and actions to our employees, customers, and partners.

COMMITMENT

We offer our valued customers the highest possible standards of solutions. At Premio, we treat customers with dignity, respect, and courtesy. We listen objectively to their needs and respond in a timely, efficient, and responsible manner.

OUR VALUE

Apart from our standard computing offerings, Premio also provides unique value to our customers through our robust engineering resources, environmental testing validation, manufacturing scale, supply chain & product lifecycle management, reverse logistics, and next generation computing design and innovation.

US BASED COMPANY WITH WORLDWIDE OPERATIONS

A STORY OF GROWTH & EVOLUTION

▶ 1989-2000

Premio, which means “Prize” in Spanish, emerged as “Premio PC”, a personal computer manufacturer providing computers nationwide to many educational programs (K-12) around the nation. From its inception in 1989 to 2000, Premio pioneered and remained a trusted partner and manufacturer for many educational institutions in the United States.

▶ 2000

As computing technology advanced and became more commoditized, Premio proved to be resilient and achieved another milestone by evolving itself from its own personal computer in 2000 into a respectable contract manufacturer – providing a variety of highly specialized turnkey OEM integration processes and business services for some of the world’s elite computing companies; many of which still exist today in its global operations.

This monumental shift demanded Premio to move its operational infrastructure into a fully automated 150,000 square feet Los Angeles based manufacturing facility that was fully customized for ultimate flexibility and unlimited scalability. Even today Premio’s world-class manufacturing facility continues to be a testament for state-of-the-art automation and assembly for many leading OEMs in computing technology.

▶ 2000-2011

Starting from the year 2000, “Premio PC” transformed its brand identity into “Premio Inc.” – becoming a pivotal partner and key advisor in manufacturing and servicing premier technology companies around the world. Furthermore, Premio also restructured its mission and core values around a customer-centric business model with “total customer satisfaction” driving its core.

By 2010, Premio Inc. achieved yet another milestone by successfully engaging with over 50+ customers worldwide ranging from enterprise level companies to start-ups that were eventually acquired by major fortune 500 companies.

▶ 2011-2017

In 2011 Premio decided to once again refine its business operations and developed more advanced technologies by investing into the research and development of home grown purpose-built Premio products in:

- Enterprise Servers and Storage Solutions
- Industrial Embedded Computing Solutions
- Industrial Touch Display Solutions

By combining our home grown products with our design capabilities plus our renowned OEM services, Premio’s advantage lies within its ability in providing a customized turnkey solution that can scale efficiently but also seamlessly align with the goals of our customers, resulting in ROI growth and measurable success over time.

Premio expanded its global footprint with the establishment of a Taiwan facility in New Taipei City, strengthening its capabilities in R&D, product engineering, and manufacturing to scale worldwide delivery of industrial computing solutions.

▶ Present

Today, Premio has successfully evolved into a full-service technology company that specializes in top-notch computing designs, scalable manufacturing for both variety and volume, and robust end-to-end business services that result in streamlined growth and success with global expansion

(Design – Manufacturing – Services)

2026 FEATURED INDUSTRIAL SOLUTIONS 12

INDUSTRIAL COMPUTERS 22

Premio's fanless embedded systems are extremely flexible and reliable to provide integrated solutions to meet different needs. With its superior features integration, exceptional system performance, flexible I/O connections, wide range power input, smart management functions, and rugged reliability, Premio fanless embedded systems deliver a compelling platform that is needed in today's demanding workloads and industrial needs.

INDUSTRIAL BOARD SOLUTIONS

Premio offers industrial-grade scalability with standard motherboards and OEM system design. Standard form factors include: Single Board Computers (1.8" FEMTO-ITX, 2.5" PICO-ITX, and 3.5" SBCs), Mini-ITX, Micro-ATX, and ATX Boards.

BOARDS SERIES	78
INDUSTRIAL BOARDS	

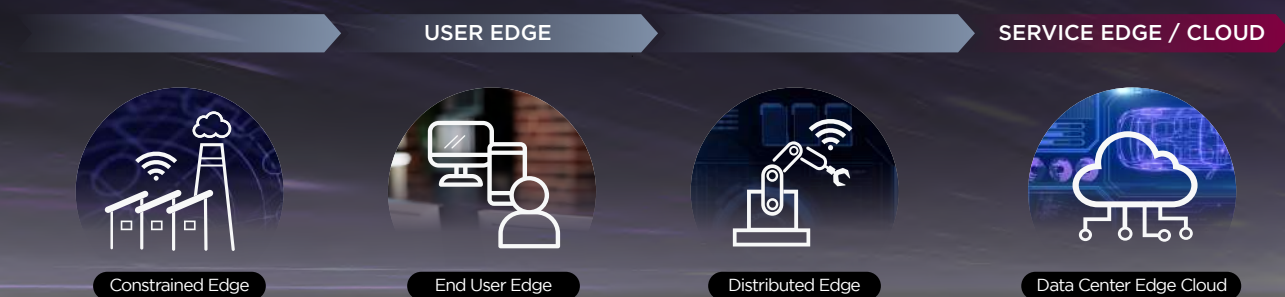

THE EDGE CONTINUUM

Industrial Edge Computer Series

The Edge Continuum spans a broad spectrum of computing solutions, from the remote constrained edge to the cloud edge servers, enabling instant data analytics, seamless connectivity, and robust control across all layers of industrial operations. Our Industrial Computers and Panel PCs seamlessly integrate within the "User Edge," where low-latency computing and industrial-grade durability are paramount. Our computing solutions are segmented into three layers within the User Edge Continuum—Industrial Edge, Rugged Edge, and Specialized Edge.

DELIVER INTELLIGENCE AT THE END USER EDGE

Our touchscreen computer series are available across the three User Edge segments, providing a wide variety of options for end-user applications. Additionally, the displays on our touchscreen computers (Panel PCs) can be configured with multiple optional features, such as PCAP or resistive touch, optical bonding, high-brightness 1000+ nits displays, and various mounting options. Our Panel PCs are available in sizes ranging from 10" up to 24" with 4:3 and 16:9 Full HD displays. Explore each Panel PC series to discover the unique features each solution offers.

Industrial Edge

- Controlled Environments
- Fanless Cooling Design
- Dust, Shock, and Vibration Resistant
- Standardized Form Factors
- Durable and Cost-Effective
- Long Lifetime Support

BCO Series Fanless Industrial Computers

The BCO series provides a comprehensive range of computing power, making it ideal for diverse industrial edge applications that require reliable, dust-resistant, and long-lifespan solutions.

Rugged Edge

- Extreme Environments
- Wide Operating Temperature
- Powerful Computing Capabilities
- Supports EDGEBoost Technology for I/O, M.2, and PCIe Customization
- Reinforced Durability

RCO Series Super-Rugged Computers

The RCO series is engineered for ultimate industrial durability and unparalleled customizability, creating a unique blend of ruggedness and flexibility.

JCO Series Jetson EDGE AI Computers

The JCO series, powered by the NVIDIA Jetson platform, delivers an optimal balance of energy efficiency and AI performance, achieving high throughput (TOPS) in a fanless design built for extreme industrial environments.

Specialized Edge

- Designed for Industry-Specific Needs
- Validated with Niche Certifications
 - EN50155 (Railway)
 - EN45545 (Fire Safety)
 - E-Mark (In-Vehicle)
 - IP68/IP69K (Waterproof)

DCO Series DIN RAIL Fanless Computers

WCO Series IP68/IP69K Waterproof

ACO Series EN50155 Railway & In-Vehicle

VCO Series Machine Vision GPU Computers

KCO Series Rackmount Industrial Computers

Industrial Edge

- Controlled Environments
- Flexible Performance
- Fanless Cooling Design
- IP65 Front Display
- 10"-21" Full HD Displays
- Extended MTBF

AIO Series All-In-One Touchscreen Computers

The AIO Series is an all-in-one touchscreen computer designed to deliver efficient edge computing through its Intel X86 and Rockchip platforms, supporting various operating systems including Windows, Linux, and Android.

HIO Series Open-Frame Touchscreen Computers

The HIO Series is an open-frame touchscreen computer with versatile I/O and connectivity options. The HIO Series leverages power-efficient X86 Intel platforms for various kiosks and open-frame mounted applications.

Rugged Edge

- Industrial Environments
- Various Computing Capabilities
- Wide Temperature Range
- Shock & Vibration Resistant
- Reinforced Durability
- Fit for Demanding Edge Applications

VIO Series Modular Touchscreen Monitors & Computers

The VIO Series is a unique, modular IP65 touch display system that allows VIO displays to be configured as either a touchscreen computer or a touchscreen monitor. VIO displays can be paired with different modules for monitor (MX Series) or computer (PC Series) functionality.

MX Series

PC Series

Specialized Edge

- Tailored for Industry-Specific Needs
- Includes IP66/IP69K Waterproof, SUS-316 Stainless Steel, and Optical Bonding
- Targeted Functionality for Specialized Applications

SIO Series Stainless Steel Touchscreen Computers

The SIO Series is an IP66/IP69K-rated Panel PC built with full SUS-316 stainless steel construction, offering superior waterproof and corrosion-resistant protection during intense washdowns.

Edge Computing Powering AI Factories

Rugged, reliable systems built for automation

The AI Factory merges intelligence, automation, and data into a self-learning ecosystem that turns sensor inputs into real-time action. Powered by edge and on-prem AI inference, it connects the physical and digital worlds to drive smarter, faster, and more resilient manufacturing.

Benefits of Edge-Native Intelligence

Immediate decisions with zero cloud latency

Localized security to protect sensitive data

Continuous operation even during network outages

Systems that adapt and learn in real-world conditions

Key Technologies in AI Factories

Intelligence is built through connected layers working together to power smart, autonomous operations.

AI Inference Powering Real-Time Intelligence

At the core of every AI Factory lies inference — where trained models analyze real-time data to generate decisions and predictions. This is where intelligence becomes action.

Testing and Digital Twins

Before deployment, agentic AI systems are trained and optimized through digital twins—data-driven replicas of factory environments that simulate and predict real-world operations

Automation and Orchestration

Manages and secures distributed AI systems after deployment, ensuring consistent performance and lifecycle control across edge nodes.

PHYSICAL AI

Edge Intelligence for Robotics & Autonomous Systems

FANLESS DESIGN

- Prevent failure/repair/replacement caused by fan part
- Venting holes no longer needed
- Extended MTBF
- No noise

ONE-PIECE DESIGN

- Robust structure
- Less joint parts and screws for higher shock & vibration tolerance
- Easy assembly, disassembly, maintenance
- Sealed housing to prevent dust

POWER PROTECTION

- Over voltage protection
- Over current protection
- Reverse protection

SHOCK & VIBRATION

Fanless computing systems comply with MIL-STD 810H on shock & vibration in order to sustain in environments such as industrial automation, transportation, military, etc.

EXPANDABLE & MODULARIZATION

The modular design approach helps with the ease of installation to achieve rapid deployment, and provide wide variety of configurable options to achieve scalability.

EXTENDED OPERATING TEMPERATURE RANGE

Premio fanless embedded systems support extended temperature to allow applications to function in difficult and harsh environment.

COMMITMENT TO INDUSTRIAL CYBERSECURITY

We have achieved IEC 62443 certification, reflecting our dedication to implementing and maintaining the highest standards of cybersecurity in industrial automation and control systems. This certification demonstrates our ongoing commitment to safeguarding critical infrastructure and delivering secure, reliable solutions.

INDUSTRY LEADING SAFETY CERTIFICATIONS

Tested and validated with safety certifications ensure product reliability against safety hazards and allow customers to comply with industry-specific regulatory requirements.

SUPER-RUGGED INDUSTRIAL COMPUTERS

1000
Ultra Compact

3000
Small Form Factor

6000
High Performance

- Intel Atom® Processors
- Up to 3x EDGEBoost I/O
- Lite AI Performance
- Up to 2x PoE and 2x LAN RJ45
- Wide Operating Temperature -40°C up to 70°C

- Intel® Core Processors
- 1x EDGEBoost I/O
- Mid-AI Performance
- Up to 4x PoE RJ45/M12
- Wide Operating Temperature -25°C up to 70°C
- EN50155 (EMC) Certified

- Intel® Core Processors
- 2x EDGEBoost I/O
- High-AI Performance
- Up to 8x PoE RJ45/M12
- EDGEBoost Nodes Compatible for SSD, GPU and PCIe expansions
- Wide Operating Temperature -25°C up to 70°C

PERFORMANCE, EXPANDABILITY, AND DURABILITY AT THE RUGGED EDGE

The RCO Series is a line of super-rugged x86 industrial computers purpose-built to enable real-time performance in extreme deployments. By leveraging a fanless and cableless design approach with modular EDGEBoost technologies, these systems can provide seamless configurability to meet varying edge-native deployment requirements while maintaining utmost durability. Available in three series, the RCO-1000, RCO-3000, and RCO-6000 Series.

EDGEBoost Nodes

EDGE AI PERFORMANCE ACCELERATORS MODULES

EDGEBoost Nodes are modular add-on nodes designed for our AI Edge Inference Computer or also known as the RCO-6000 Series. These add-on nodes provide an easy and cost-effective upgrade for the rugged, fanless computer. They elevate computer performance through additional performance accelerators. The EDGEBoost Nodes deliver powerful real-time inferencing capabilities and high-speed data storage performance for intensive industrial-grade Edge AI applications.

Customize Your Performance Accelerators

Tested & Validated GPU List

Model Name	RAM	CUDA Cores	TDP	Display	Interface	Active Cooling	Slots
NVIDIA RTX 2000 ADA	16G	2816	70	4x mDP	PCIe 4.0 x8	Yes	2
NVIDIA RTX 4000 SFF	20G	6144	70	4x mDP	PCIe 4.0 x16	Yes	2

* The EDGEBoost Nodes supports GPU cards with dimension of 235 mm in length, 112 mm in width, and up to 3-slot high.
 ** The second power supply delivers stable power up to 280W for the GPU card and the NVMe drives with a wide voltage of 12-48VDC support.

EDGEBoost Nodes

MORE

Configuration Guide

The RCO-6000 Series is a standalone, fanless industrial computer that can be enhanced with EDGEBoost Nodes for additional performance upgrades. This two-piece modular design allows the EBND add-on nodes to seamlessly attach to the lower portion of the RCO-6000, delivering advanced performance accelerators optimized for AI edge computing.

RUGGED EDGE AI POWERED BY NVIDIA JETSON MODULES

The JCO Series industrial computer, powered by the advanced NVIDIA Jetson platform, is a standout in AI and industrial computing. This series offers exceptional AI computing capabilities, making it perfect for sophisticated robotics, autonomous machinery, and high-end embedded AI tasks. Designed to withstand harsh industrial conditions, the JCO Series ensures consistent performance even in extreme environments.

Weight	6 - 7 kg

ACO SERIES

RAILWAY & IN-VEHICLE INDUSTRIAL COMPUTERS

DELIVER INTELLIGENCE AT THE MOBILE EDGE

The ACO-6000 Series offers robust, fanless in-vehicle computers, rigorously tested for mission-critical automotive applications. Essential for intelligent transportation, these systems adeptly handle edge data processing for machine learning and intelligence. With the need for high-performance computing in vehicles, they efficiently process data from various sensors and IoT devices, ensuring swift, low-latency communication.

Scalable
16x PoE

EN50155 / EN45545
and E-Mark

Wide Power Range
9-48V and 48-110V

MIL-STD-810H
Compliant
Method 514 & 517

Memory	2x DDR5 SODIMM, Max. 64GB (ECC / Non-ECC)
Display Output	Triple Display: 2x DisplayPort + 1x DVI-I
Storage	3x 2.5" SATA bays (1 internal + 2 hot-swap), RAID 0/1
Expansion	1x M.2 B-Key (AI/Storage/4G/5G), 1x M.2 E-Key (Wi-Fi/BT), 1x Full-size Mini-PCIe, 2x EDGEBoost I/O Slot
LAN Options	2x 2.5GbE LAN, 4x USB 3.2 Gen2, 2x USB 2.0, 2x COM, 8x DI + 8x DO (isolated), 1x CAN 2.0B
Power Input	9-48V DC input, AT/ATX mode, Ignition Power Management
Operating Temperature	-25°C to 70°C (35W CPU) -25°C to 60°C (65W CPU)
Certifications	EN50155 / EN50121-3-2 Railway EMC, UL 62368-1 Ed.3, CE, FCC A, UKCA, ICES-003
Dimensions (WxDxH)	240 x 261 x 79.1 mm

ACO-3000-ORN SERIES

Model	ACO-3000-ORN-4L-IP66
Processor	NVIDIA® Jetson Orin™ NX Super/Nano Super
TOPS and Memory	NX 16 GB: 1024-core NVIDIA Ampere architecture GPU (40W/157 TOPS) NX 8 GB: 1024-core NVIDIA Ampere architecture GPU (40W/117 TOPS) Nano 8 GB: 1024-core NVIDIA Ampere architecture GPU (25W/67 TOPS) Nano 4 GB: 512-core NVIDIA Ampere architecture GPU (25W/34 TOPS)
Storage	M.2 M-Key NVMe SSD (128GB default) and 1x MicroSD 3.0 slot.
Expansion	1x M.2 E-Key (Wi-Fi), 1x M.2 B-Key (4G/5G), and 1x M.2 B-Key (PCIe x1 + USB2.0, 2242/2280).
LAN	4x 2.5GbE (M12 X-coded, waterproof rugged connectors).
USB & Console	USB 3.2 Gen2 Type-A, USB 2.0 Type-A, USB-C (OS Flash), Micro-USB (Console).
Serial & Camera	2x COM RS-232/422/485 (M12 A-coded) and 4x GMSL2 Fakra-Z camera ports (optional).
DIO / CAN / Audio	4x DI / 4x DO (Isolated), CAN 2.0B (M12 A-coded), Mic-in + Line-out (M12 A-coded).
PoE	Optional 4-port 60W PoE module supporting IEEE 802.3af (4 ports) and 802.3at (2 ports).
Operating System	Ubuntu 22.04 with NVIDIA JetPack 6.2.
Power Input	9-48V DC via M12 K-code connector, AT/ATX mode, ignition sensing, OVP/OCP/Reverse Protection.
Operating Temperature	-20°C to 50°C (40W mode) and -20°C to 60°C (25W/15W power modes).
Certifications & Protection	IP66 Waterproof; CE, FCC Class B, ICES-003, UKCA; Railway EMC: EN50155; E-Mark (E24); UL 62368-1 Ed.3

DCO SERIES

DIN RAIL FANLESS INDUSTRIAL COMPUTERS

COMPACT & RICH I/O CONFIGURATION FOR DIN RAIL APPLICATIONS

The DCO-1000-ASL is a compact, fanless DIN-rail industrial computer designed for demanding IoT environments. Built to operate reliably in extreme temperatures and resist shock and vibration, it's ideal for space-constrained industrial applications requiring advanced remote management and top-tier durability.

Compact Form Factor

Rich I/O Configuration

Industrial IoT Solutions

Ruggedized Fanless Solution

DCO-1000-ASL [MORE](#)

Designed for flexibility, the DCO-1000-ASL features a comprehensive I/O suite and multiple M.2 expansion slots, enhancing connectivity and customization for industrial applications. Perfect for demanding environments, it provides advanced remote management and robust certifications, ensuring reliable performance in automation and smart city infrastructure.

Model	DCO-1000-ASL
Processor	Intel® Atom® x7433RE (Quad-Core, 3.4GHz Turbo, 9W TDP) Intel® Atom® x7835RE (8-Core, 3.6GHz Turbo, 12W TDP)
Memory	1x DDR5 4800/5600 MT/s SO-DIMM, Max. 32GB (In-Band ECC supported)
Display Output	2x DisplayPort 1.4 (4096x2160 @ 60Hz), Dual Independent Display
Storage	1x M.2 B-Key (PCIe x2 NVMe, 2242)
Expansion	1x M.2 B-Key (4G/5G module), 1x M.2 E-Key (Wi-Fi/BT), Dual SIM
I/O Ports	4x 2.5GbE LAN (Intel® I226), 2x COM (RS-232/422/485), 2x USB 3.2 Gen2, 2x USB 2.0, 4x DI + 4x DO (isolated)
Optional Feature	Out-of-Band Management (RJ45), CAN Bus x2 (internal header)
Power Input	9-36V DC, 3-pin terminal block, AT/ATX mode, OVP/OCP/Reverse Protection
Operating Temp	-40°C to 65°C
Operating System	Windows 10 / Windows 11, Linux Kernel 6.2
Certification	UL 61010-1, UL 61010-2-201, CE, FCC Class A, UKCA, ICES-003, RoHS3, REACH
Shock & Vibration	Shock: 20G, 11ms; Vibration: 5 Grms (5-500Hz) DIN-Rail / Wall-Mount
Dimensions (WxDxH)	150 x 105 x 50 mm
Weight	0.85 kg

WCO SERIES

IP68/IP69K WATERPROOF INDUSTRIAL COMPUTERS

DELIVER EDGE INTELLIGENCE AMID WATER AND DUST EXPOSURES

The WCO Series unifies advanced CPU compute capabilities, I/O expandability, and AI acceleration for dynamic industrial deployments. The WCO Series is designed to fit into a rugged industrial environment where dust and water resistance are a must. Equipped with fanless design and IP68/IP69K ratings, the WCO series expands the limitation of regular embedded systems in extremely harsh deployments.

Model	WCO-3000-EHL
Processor	Intel® Atom® x6425E (Quad-Core, 2.0 GHz, 12W TDP)
Memory	1x DDR4 SODIMM, Max. 32GB
Display Output	1x DisplayPort 1.4 (4096x2160 @ 60Hz) or optional HDMI
Storage	1x Internal 2.5" SATA drive bay + 1x mSATA (shared with Mini-PCIe)
Expansion	1x M.2 B-Key (3042/3052, PCIe x1 + USB 3.2), 1x Mini PCIe, 2x Internal SIM
I/O & LAN	2x LAN (M12 X-Code: 1x 1GbE + 1x 2.5GbE), 1x RS-232/422/485 (M12 A-Code), 2x USB 3.2 Gen2 (M12), 2x CAN Bus (internal header), Audio (Mic-in / Line-out)
Optional Features	HDMI, 2x PoE, AI Hailo/5G, Ignition Power Control
Power Input	9-36V DC (M12 S-Code), optional 48-110V DC; AT/ATX mode; OVP/OCP/Reverse Protection
Operating Temperature	-40°C to 60°C (per IEC60068-2-1/2/3/14 environmental tests)
Operating System	Windows 10, Linux Kernel 5.x
IP Rating	IP68 / IP69K waterproof & dustproof (sealed M12 I/O, fully enclosed chassis)
Certifications	CE, FCC Class A, ICES-003, UKCA, IEC60068-2-27 shock, IEC60068-2-64 vibration, MIL-STD-810H compliant
Mechanical Design	Extruded aluminum + heavy-duty metal; M12 rustproof I/O; wall-mount
Dimensions (WxDxH)	231 x 292 x 57 mm

IP68: A rating standard for dust and water resistance

- 6: Dust-tight, meaning no dust ingress. Full protection against dust.
- 8: Withstand continuous immersion in water (typically up to 1 meter or more)

IP69K: Specifically tested for high-pressure, high-temperature water jets.

- 6: Dust-tight, providing complete protection against dust ingress. (Same as IP68)
- 9K: Withstand high-temperature water jets (water temperatures up to 80°C) & High-pressure water jets (pressure up to 100 bar (1450 psi))

VCO SERIES

MACHINE VISION INDUSTRIAL COMPUTERS

PCIe CARD EXPANSION FOR INTELLIGENT COMPUTER VISION

The VCO-6000 Series is engineered for seamless integration of dual FHFL GPU cards through PCIe Gen 4 and industry-leading external storage expansion drives, delivering optimized processing and data aggregation. Deploy machine vision and AI inference applications with utmost reliability and performance to the rugged edge.

KCO SERIES

FANNED INDUSTRIAL COMPUTERS

ACTIVE COOLING INDUSTRIAL COMPUTER FOR INSPECTION & INTELLIGENT COMPUTER VISION

Introducing the KCO-RPL Series, a line of high-performance fanned industrial computers powered by Intel® 13th Gen Raptor Lake processor. These ruggedized edge computers deliver extensive scalability and IIoT-centric flexibility for seamless optimization in high-spec deployment applications. Additionally, the KCO-RPL Series provides a number of edge-native features to accommodate and ensure reliable performance at the rugged edge.

Support Dual GPU

Rich M.2 and PCIe Expansions

Internal Flex Power Supply

Rackmountable Industrial Solution

Our industrial touchscreen computers and monitors offer tailored solutions for diverse needs, featuring modular designs, stainless steel washdown panels, and open-frame PCs—built to tackle application challenges with precision and reliability.

FIO SERIES

INDUSTRIAL OPEN-FRAME TOUCHSCREEN MONITORS

INDUSTRIAL HMI TOUCHSCREENS

The FIO Series are selection of standardized industrial open-frame touchscreen monitors that are designed to seamlessly integrate into both future and existing HMI systems. With the slim industrial-grade design, extended lifespan and world-class certifications, the FIO Series are purpose-built for ruggedized and suitable for various industries required minimal to no maintenance.

INDUSTRIAL OPEN-FRAME TOUCHSCREEN MONITORS

FIO SERIES [MORE](#)

HMIs (Human-Machine Interfaces) are critical data points for real-time controls, status, and information. Premio's line of rugged open-frame touchscreen monitors, FIO Series, are purpose-built to deliver dedicated data visualization and controls for industrial deployment applications. Designed for flexible compatibility, the FIO Series follows a standardized approach for seamless integration into both existing and future systems.

HIO-200-ADL SERIES [MORE](#)

HIO Series provides a selection of Open Frame Touchscreen Computers ranging from 10.1" to 21.5" for seamless integration for HMI deployments. With ultimate screen readability and clarity, this series is front panel IP65 rated with 7H scratch resistant. All while being powered by Intel® Alder Lake N97 processor.

Model	HIO-W210-ADL	HIO-W215-ADL	HIO-W221-ADL
Display Size & Resolution	10.1" 1280 x 800 (WXGA)	15.6" 1920 x 1080 (FHD)	21.5" 1920 x 1080 (FHD)
Brightness	400 nits	400 nits	500 nits
Touchscreen	10-Point PCAP, 7H hardness		
Processor	Intel® Processor N97, up to 3.6GHz		
Memory & Storage	8GB DDR5 (max 32GB) + 128GB M.2 B-Key SSD		
I/O & LAN	4x USB 3.2 Gen2, 4x USB 2.0 (internal), 2x 2.5GbE LAN, 2x COM, Line-out		
Display Output	1x DP (4K@60), 1x HDMI (UHD@30)		
Expansion	1x M.2 E-Key (Wi-Fi 6E optional), dual PIFA antenna support		
Power Input	9-36V DC (60W adapter default)		
Operating Temperature	-10°C to 50°C		
Mounting Options	Open-frame panel mount, wall mount		
Dimensions (WxHxD)	252 x 166 x 39 mm	395 x 245 x 40 mm	533 x 325 x 46 mm

INDUSTRIAL MOTHERBOARD

Our line of industrial motherboards and single board computers represent the standard of embedded computing as well as the future of data processing and I/O connectivity. From OEM /ODM enterprise computing designs to embedded single board computer applications, We provide reliability and longevity with standard off-the-shelf industrial grade motherboards for the most challenging embedded deployments.

We also provide end-to-end engineering services to ensure your configuration requirements and solve your mechanical design challenges. From a full custom solution to a small change in the I/O, we can adapt each motherboard to comply with your specifications without compromising performance.

BOARDS SERIES [MORE](#)

We offer industrial-grade scalability with standard motherboards and OEM system design. Standard form factors include: Single board computers (1.8" Femto-ITX, 2.5" PICO-ITX, and 3.5" SBCs); Mini-ITX; and Micro-ATX.

1.8" FEMTO ITX SERIES

Model	CT-NR101
CPU	AMD Ryzen™ Embedded R1606G with Radeon™ Vega 3 Graphics (3.5GHz/2 Core)
Memory	1x DDR4-2400 Single-Channel Memory 4GB (Up to 8GB, Optional)
Storage	eMMC up to 64GB
Display	2x Micro HDMI 1.4 (4K DCI)
Rear I/O	1x RJ45 (GbE) 1x Type C USB 3.1 Gen 1 (5V/3A) 2x 5-pin header DIO (4-in/4-out)
Internal I/O	1x USB 2.0 (4-pin header, internal)

Model	CT-DAS01 / CT-DAS02	CT-DML01	CT-DPLO1
Processor	<ul style="list-style-type: none"> CT-DAS01: Intel® X7433RE/X7835RE Wide Temperature CT-DAS02: Intel® N150 	Intel® Core™ Ultra 5 125U / Ultra 7 155U	Intel® Core™ Ultra Series 3 (Panther Lake-H), 25W
Memory	1x DDR5 4800 SO-DIMM (Max 16GB)	1x DDR5 5600 SO-DIMM (Max 48GB)	1x DDR5 SO-DIMM, (Max 128GB)
Storage	1x M.2 M-Key NVMe + 1x SATA (share with B Key)	1x M.2 M-Key (NVMe/SATA Auto-Detect)	1x M.2 M-Key 2280, PCIe Gen4 x4 NVMe
Expansion	M.2 B-Key (NVMe/4G/5G), M.2 E-Key (Wi-Fi/BT)	M.2 B-Key (4G/5G), M.2 E-Key (Wi-Fi/BT)	M.2 E-Key (Wi-Fi/BT), M.2 B-Key (4G/5G), Dual Nano SIM
I/O & LAN	2x 2.5GbE, DP, HDMI, USB-C, 3x USB 3.2, COM, DIO	3x 2.5GbE, 2x DP, USB-C, USB 3.2, COM, DIO, Dual SIM	3x 2.5GbE, USB-C + PD, DP, USB 3.0, 4x COM, GPIO, Audio

Model	CT-XRL02	CT-XAR01
Processor	Intel® 12 th /13 th /14 th Gen Core™ i9/i7/i5/i3 (65W, LGA1700)	Intel® Arrow Lake-S Core Ultra 9/7/5 Series (65W, LGA1851)
Chipset	Intel® Q670E	Intel® W880
Memory	2x DDR4 3200 SO-DIMM, max 64GB	2x DDR5 5600 SO-DIMM, ECC/Non-ECC, max 96GB
Display Output	2x DP, 1x HDMI (Triple Display)	2x DP, 1x HDMI, 1x LVDS/eDP (Quad Display)
Storage	1x M.2 M-Key NVMe (Gen3), 3x SATA 6Gb/s (RAID 0/1/5)	1x M.2 M-Key (NVMe/SATA, 2280), 2x SATA 6Gb/s (RAID 0/1)
Expansion	1x PCIe x16 (Gen4 via golden-finger riser), 1x M.2 E-Key, 1x M.2 B-Key (with Nano SIM)	1x PCIe x16 (Gen5), 1x M.2 E-Key, 1x M.2 B-Key
LAN	3x 2.5GbE (Intel® I226 series)	
I/O Ports	6x USB 3.2 Gen2, 2x USB 3.2 Gen1 (internal), 2x USB2.0 (internal), 2x COM RS-232/422/485, Audio	6x USB 3.2 Gen2, 2x COM RS-232/422/485, Audio Line-out/Mic-in
Operating System	Windows 10/11, Linux Kernel	Windows 10/11 IoT Enterprise, Ubuntu 22.04/24.04 LTS
Power Mode	ATX 24-Pin + 12V-8Pin	ATX 24-Pin
Environment & Certification	0°C to 60°C, CE, FCC Class A	0°C to 60°C, CE, FCC Class A, UKCA
Form Factor	170 x 170 mm

Model	CT-MRL01	CT-MBL01
Processor	12 th /13 th /14 th Gen Intel® Core™ i9/i7/i5/i3 (65W, LGA1700)	12 th /13 th /14 th Gen Intel® Core™ Ultra / Core™ (Alder Lake-S / Raptor Lake-S / Bartlett Lake-S), up to 65W
Chipset	Intel® Q670E	
Memory	4x DDR4 DIMM (2133-2666MHz), max 128GB	4x DDR5-4400 UDIMM, max 128GB
Display Output	4x DP++ (quad-display support)	4x DP++ (quad-display support)
Storage	2x M.2 M-Key NVMe/SATA (2242/2260/2280), 4x SATA 6Gb/s	2x M.2 M-Key NVMe/SATA (2242/2260/2280), 4x SATA 6Gb/s
Expansion Slots	1x PCIe x16 Gen5, 1x PCIe x16 Gen4 (4-lane), 1x PCIe x4 Gen4, 1x PCIe x4 Gen3	1x PCIe x16 Gen5, 1x PCIe x16 Gen4 (4-lane), 1x PCIe x4 Gen4, 1x PCIe x4 Gen3
LAN	1x 1GbE (Intel® I219LM), 1x 2.5GbE (Intel® I225-V)	2x 2.5GbE (Intel® I226 series)
I/O Ports	6x USB 3.1 Gen2, 1x USB-C Gen2x2, 2x USB 3.0 (internal), 4x USB 2.0 (internal), 6x RS-232, Audio, 8-bit DIO	6x USB 3.1 Gen2, 1x USB-C Gen2x2, 2x USB 3.0 (internal), 4x USB 2.0 (internal), 6x RS-232, Audio, 8-bit DIO
Operating System	Windows 10/11, Linux Kernel 5.x	Windows 11 IoT, Ubuntu 22.04/24.04
Power	ATX power, ACPI 5.0, dual 12-pin + 2-pin headers	ATX power, ACPI 5.0, dual 12-pin + 2-pin headers
Environment & Certifications	Operating: 0°C to 60°C; Storage: -40°C to 85°C; 10-90% RH; CE, FCC Class B	Operating: 0°C to 60°C; Storage: -40°C to 85°C; 10-90% RH; CE, FCC Class B
Form Factor	244 x 244 mm	

Model	CT-ARL01	CT-AR701
Processor	12 th /13 th /14 th Gen Intel® Core™ i9/i7/i5/i3, Pentium®, Celeron® (LGA1700), up to 125W TDP.	AMD Ryzen™ 9000/8000/7000 Series Desktop CPUs & EPYC™ 4004 (Socket AM5), up to 170W TDP
Chipset	Intel® R680E Express Chipset.	AMD B650
Memory	4x DDR5 4400 ECC/non-ECC UDIMM slots, up to 128GB.	4x DDR5 UDIMM, dual-channel, up to 256GB (DDR5 5200 MT/s 1DPC)
Display Output	3 independent displays: 1x DP (4096x2160@60Hz), 1x HDMI (4096x2304@60Hz), 1x VGA (1920x1200@60Hz).	1x DP 1.4a (4096x2160@60Hz), 1x HDMI 2.0 (4096x2160@60Hz); dual independent displays
Storage	4x SATA 3.0 (RAID 0/1/5/10), 2x M.2 M-Key (1 from CPU, 1 shared with PCIe Slot 5).	4x SATA 3.0 (AHCI), 1x M.2 M-Key (2242/2280)
Expansion Slots	PCIe Slots: 2x PCIe x16 (Gen5, configurable as x16 or dual x8), 4x PCIe x4, 1x PCIe x1.	2x PCIe x16 (Gen5/Gen4, x16 or dual x8), 1x PCIe x4 (open-end), 2x PCIe x1
M.2 Expansion	M.2 Slots: 1x M-Key, 1x E-Key (PCIe x1), 1x B-Key (PCIe x2).	1x M.2 M-Key (PCIe x4, NVMe), 1x M.2 E-Key 2230 (PCIe x1 + USB 2.0)
LAN	4x 2.5GbE (Intel® I225-LM).	2x 1GbE (Intel® I210AT, RJ-45) + 2x 10GbE (Broadcom BCM57412, SFP+)
I/O Ports	Rear I/O: 8x USB 3.2 Gen2, 1x DP, 1x HDMI, 1x VGA, 1x Mic-in, 1x Line-out, 1x PS/2.	Rear: USB 3.2 Gen2 Type-A, DP+HDMI stack, Audio jack, LAN; Internal USB headers supported
Internal I/O	Internal: 2x USB 3.2 Gen1, 3x USB 2.0, 6x COM (RS-232/422/485), GPIO (16-bit), SMBus, I ² C, PMBus.	6x COM, multiple USB headers, TPM 2.0, GPIO, fan headers, OOB connector, watchdog
Operating System	Windows 10 IoT Enterprise 2021 LTSC, Windows 11 IoT Enterprise 22H2, Linux Kernel 5.xx, Ubuntu 22.04 LTS.	Windows 11 (Ryzen 7000/8000), Linux Kernel 5.x, Ubuntu 22.04 LTS (pre-scan)
Power	ATX-Power 24-Pin + 12V-8Pin; ACPI 5.0; Watchdog Timer; TPM 2.0 (Infineon SLB9672).	ATX power: 24-pin ATX + 8-pin 12V, AT/ATX selectable
Environment & Certifications	Operating Temp: 0 to 60°C; Storage: -20 to 80°C; Humidity: 10-90% RH.	Operating 0 to 60°C, Storage -20 to 80°C, 10-90% RH (non-condensing)
Certifications	Certifications: CE, FCC Class-B, DSMTI, RCM, VCCI.	CE, FCC Class B, RoHS compliant
Form Factor	305 x 244 mm	

* The CT-ARL01 Series is available exclusively in the North Americas, contact sales@premioinc.com for more information.
